SUPPLIER CHALLENGES

- Increased demand volatility
- Inefficient and time consuming management of labor, inventory, and production
- Lack of tracking, reporting and real-time insights for operations
- Trust and communication deficits with trading partners

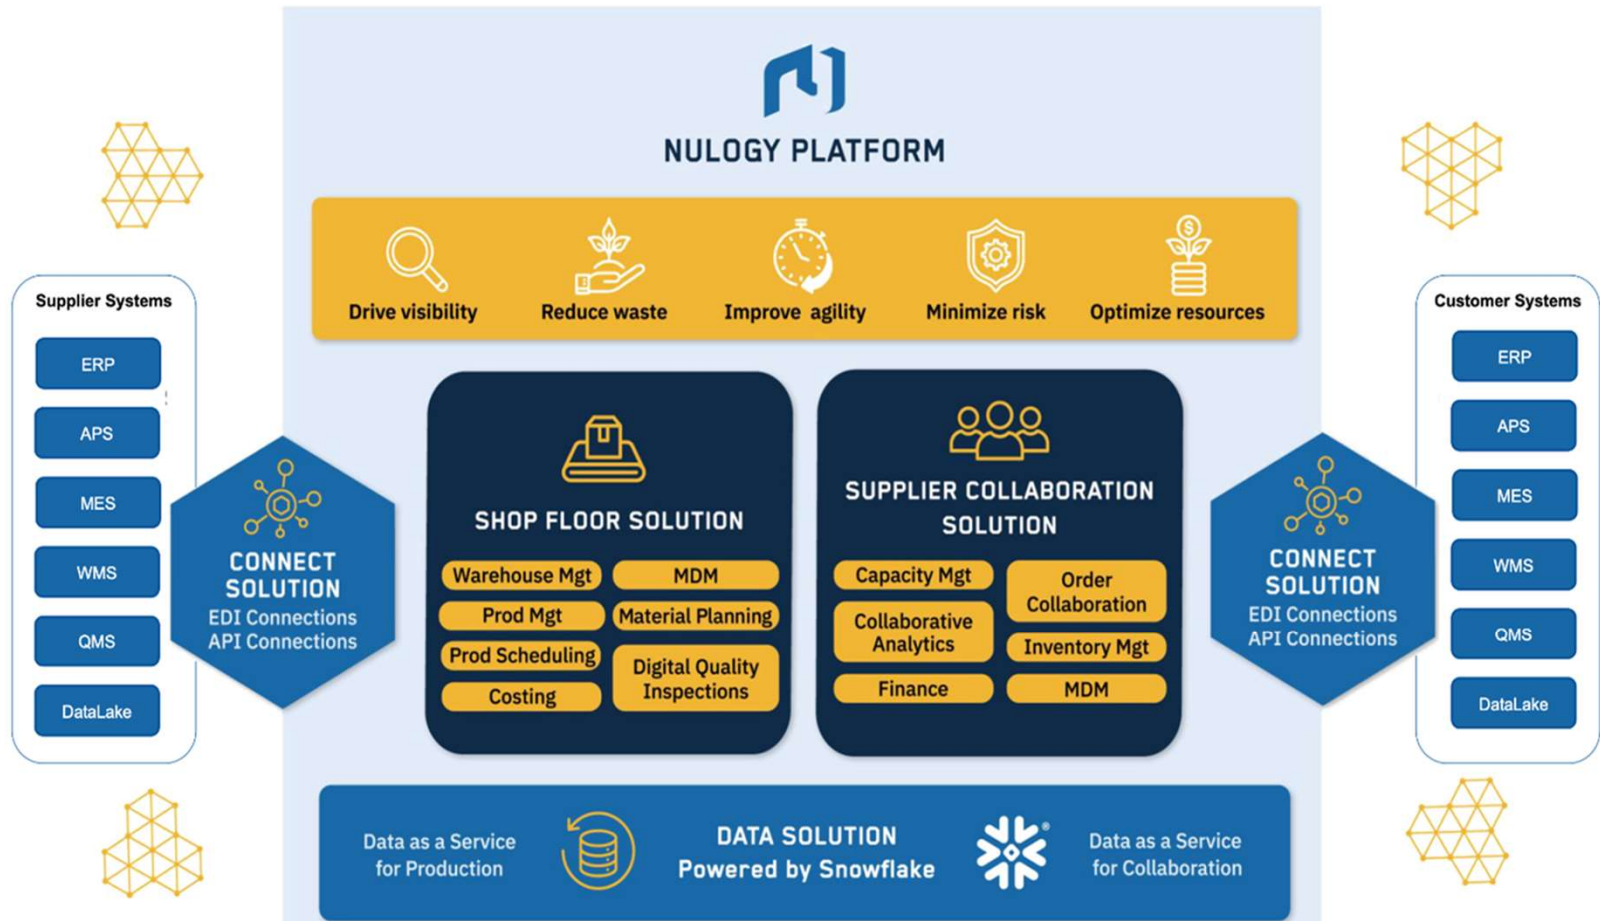

MANUFACTURER AND SUPPLIER BOTH SEARCH FOR A SOLUTION...

The **Manufacturer** is looking for a solution that helps them better orchestrate and collaborate with their external supply network.

The **Supplier** is looking for a solution that gives them more operational control and the ability to better coordinate and collaborate with their customers and suppliers.

... AND BOTH FIND NULOGY
